Alternatively, or if a writer/cashier manually inputs enters or scans the ticket/voucher sequence number into the pari-mutuel computer system, the writer/cashier either immediately writes/ or stamps the date, amount of payment, and a "paid" designation on the patron's ticket/voucher or attaches to the patron's copy a pari-mutuel computer system "paid" ticket which indicates a paid designation, ticket number, amount of payment, and date.
- 10-9. The pari-mutuel computer system is incapable of authorizing payment on a ticket/voucher, which has been previously paid, a voided ticket/voucher, a losing ticket, or an unissued ticket/voucher.
- 11-10. ~~In case of computer failure, tickets may be paid.~~ In those instances where a pari-mutuel system failure has occurred and tickets are manually paid, a log will be maintained which includes:
- a. Date and time of pari-mutuel computer system failure;
 - b. Reason for failure; and
 - c. Date and time the pari-mutuel computer system is restored.
- ~~12. All manually paid tickets are entered into the computer system as soon as possible to verify the accuracy of the payout (this does not apply to purged, unpaid winning tickets). All manually paid tickets must be regraded as part of the end-of-day audit process should the computer system be inoperative.~~
11. For all payouts which are made without a pari-mutuel computer system authorization, after manual grading of the ticket, the date and time must be stamped on the patron's copy, amount of the payment, and a "paid" designation is written or stamped on the patron's copy of the ticket.
12. For payouts made without pari-mutuel computer system authorization (i.e., system inoperative) the following are performed:
- a. Prior to completing the payout, the book manager or other authorized supervisory personnel, reviews the documentation supporting and explaining the payout and signs the ticket as evidence of review; and
 - b. Once the pari-mutuel computer system is operational, personnel immediately enters all manually paid tickets into the pari-mutuel computer system to verify the accuracy of the amount paid for the tickets and the manual grading of the tickets. If the pari-mutuel computer system remains inoperative at the end of the day, the procedures required by ICP #27(c) are required.

- b. Signatures of two employees who have verified the net cash proceeds recorded in ICP #14(a) computation ~~turned in for the shift.~~

Note 1: ICP #14 is also to be performed whenever there is a change of a writer/cashier at a station during a shift. In such a case when the cash is transferred from one writer/cashier to the next writer/cashier, the cash summary report for the shift is to reflect for each writer/cashier and each station, the amount of cash turn-in and any variances between the cash turn-in and the amount of net cash that the pari-mutuel computer system indicates is in each writer/cashier station.

Note 2: ICP #14 does not apply to areas outside the race and sports book area (e.g., casino cage) that cash tickets.

Note 3: Alternatively, ICPs #13 - #14 are performed for each writer/cashier rather than each writer/cashier station.

Employee Wagering
